**Three** of the "Top 10 Certifications That Help IT Workers Get Jobs" are **CompTIA** certifications

## Mission: To deliver IT talent to the global workforce.

CompTIA certifications are mapped to skills and competencies needed for job roles versus vendor specific technology. *Vendor neutrality* helps IT professionals develop learning agility. By having mastered baseline skills, CompTIA-certified IT professionals are equipped to learn and apply new information quickly.

### Here's how CompTIA benefits you:

#### Value of Certification

Gaining industry-recognized certifications can help learners differentiate themselves in a challenging job market. It's essential to validate skills and add valuable credentials to a resume or advance in an IT career. CompTIA certifications can assist with:

- A competitive edge in a highly technical job market
- Heightened career advancement opportunities

#### Learners/Professionals

CompTIA certifications are the best way to future-proof a career in the IT industry. Certifications validate knowledge and skills required by employers to ensure their staff can get the job done.

#### Government

Certifications below are updated regularly and aligned to NICE Workforce Framework. Government employees can verify their cyber knowledge and skills and fulfill government directives like FISMA and DoD 8570/8140.

## Course Overview

# CompTIA A+ Certification Course

This 8-week course prepares you for the two CompTIA A+ Core Series exams: Core 1 (220-1101) and Core 2 (220-1102). You will learn how to perform critical IT support tasks and today's core technologies from security to networking to virtualization and more.

## Modules:

CompTIA A+ is the starting point for a career in IT and validates foundational skills across a variety of devices and operating systems. You will learn how to perform critical IT support tasks and today's core technologies. Students will receive hands-on experience through online labs, activities, assessments, projects, and challenging scenario-based exercises that reinforce curriculum topics.

### Upon completion, you will be ready to:

Sit for CompTIA A+ certification exams (Core 1 and Core 2) and show you can:

- Install and configure end-user devices and software
- Address connectivity problems
- Perform basic cybersecurity mitigations
- Troubleshoot common problems to diagnose and resolve issues
- Demonstrate basic knowledge of scripting, the cloud, and virtualization

### Recommended knowledge and experience:

- While no previous experience is required, we recommend having 9-12 months of hand-on experience in the lab or field setting.

## Course Highlights:

### Project-based learning:

Exams, Labs and Capstone Project

### Live lecture:

Tuesday, Wednesday and Thursdays 3-4 PM EST

### Office hours:

Mondays and Friday 3-4 PM EST

### Certification exam fee included:

Voucher for CompTIA A+ certification exam included

### Certificate of Completion

Received from an Accredited University upon completing course

## Course Overview

# CompTIA Network+ Certification Course

This 8-week course prepares you for the CompTIA Network+ certification exam. Gaining this certification shows that you have the specific skills that network professionals need in today's networking environments.

## Modules:

CompTIA Network+ validates the technical skills needed to securely establish, maintain and troubleshoot the essential networks that businesses rely on. CompTIA Network+ focuses on foundational networking tools and technologies used to create secure networks and guarantee the availability of critical business information. Students will receive hands-on experience through online labs, activities, assessments, projects, and challenging scenario-based exercises that reinforce curriculum topics.

## Sit for the CompTIA Network+ exam and show you:

- Implement enterprise-level wired and wireless network solutions
- Identify and troubleshoot network performance issues
- Harden networks against threats to mitigate security vulnerabilities

## Recommended knowledge and experience:

- Have earned the CompTIA A+ Certification
- At least 9 to 12 months of networking experience

## Course Highlights:

**Project-based learning:**  
Exams, Labs and Capstone Project

**Live lecture:**  
Tuesday, Wednesday and Thursdays 3-4 PM EST

**Office hours:**  
Mondays and Friday 3-4 PM EST

**Certification exam fee included:**  
Voucher for CompTIA Network+ certification exam included

**Certificate of Completion**  
Received from an Accredited University upon completing course

## Course Overview

# CompTIA Security+ Certification Course

This 8-week course prepares you for the CompTIA Security+ certification exam. Gaining this certification shows that you have the baseline skills necessary to perform core security functions and pursue an IT security career.

## Modules:

CompTIA Security+ is a global certification that validates the baseline skills necessary to perform core security functions and pursue an IT security career. This course will cover attacks, threats and vulnerabilities, architecture and design, implementation, operations and incident response, and governance, risk and compliance. Students will receive hands-on experience through online labs, activities, assessments, projects, and challenging scenario-based exercises that reinforce curriculum topics.

## Upon completion, you will be ready to:

Sit for the CompTIA Security+ exam and shows:

- Assess security posture and implement security solutions
- Monitor and secure hybrid environments, including cloud, mobile and IoT
- Operate with an awareness of applicable laws and policies
- Identify, analyze, and respond to security events and incidents

## Recommended knowledge and experience:

- Have earned the CompTIA Network+
- Two years' experience in IT administration with a security focus

## Course Highlights:

**Project-based learning:**  
Exams, Labs and Capstone Project

**Live lecture:**  
Tuesday, Wednesday and Thursdays 3-4 PM EST

**Office hours:**  
Mondays and Friday 3-4 PM EST

**Certification exam fee included:**  
Voucher for CompTIA Network+ certification exam included

**Certificate of Completion**  
Received from an Accredited University upon completing course
