

Registered Apprenticeship Program

We enable employer partners to build new tech talent through the development of current employees and new hires. Through collaboration with Apprenti and the Good Jobs Challenge Grant, we accelerate opportunity by providing a cost-effective approach to talent development.

Zero-Cost Training for In-demand Jobs

Our certified and approved instructors offer comprehensive training and coaching, utilizing official curriculum, immersive hands-on labs, and industry certifications tailored to each job pathway.

Training is available for the following job roles, with additional pathways upon request.

- Platform Developer
- Software Development Engineer
- Cloud/DevOps Engineer
- Cybersecurity Engineer
- Data Analytics and Machine Learning Engineer

Program Features and Benefits

- **Immersive, hands-on training** using official curriculum and labs
